

Knowledge Q&A: Dignity & Person Centred Care

Staff Knowledge Q&As are, randomised question-and-answer checks carried out with employees to test their understanding of key policies, procedures, and regulatory requirements. These checks form part of our safer recruitment, induction, supervision, and ongoing competency processes.

The purpose of Staff Knowledge Q&As is to:

- Confirm that staff can demonstrate knowledge of essential areas such as safeguarding, incident reporting, health and safety, and the Care Quality Commission (CQC) Fundamental Standards.
- Provide assurance that training is embedded into daily practice and not just completed as a one-off exercise.
- Identify gaps in knowledge and offer targeted refresher training where needed.
- Evidence to regulators, including the CQC, that we are actively monitoring staff competency and supporting continuous professional development.

Q&As are completed on a **random basis**, ensuring that staff remain up to date at all times and that knowledge is tested fairly across the team. This approach
